

## St John the Baptist, Margate, Kent Baptisms 1729 - 1770

---

### Scope

Baptisms 30th March 1729 to 26th December 1770

### Arrangement

Entries are listed alphabetically by surname, in a format similar to the original but with the surname usually quoted only once. In the original until 1759, surnames appear twice : first in the left-hand margin, and again in the main entry ~ if these differ, then the version with the most likely representative spelling has been used for indexing purposes, and the other is quoted as a spelling variant. Surnames are as in the original, and spellings have not been standardised ~ specifically, letters which have been omitted from surnames (noted in the original by the use of a tilde) have not been reinstated.

Dates are as in the original, except in a few cases (all noted) where the 25th March appears to have been attributed to the wrong year. Dates have not been converted to 'new style'. From 1750 entries normally have two dates : the first is the birth date, the second the date of the baptism ~ unless specified otherwise, the year of birth is the same as the year of baptism.

Entries are numbered, and the numbers are used in the indexes (starting on page 32) for Persons, Places and Miscellaneous topics.
